DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 1, 3, 5, 7-18, and 21-28 have been considered but are moot in view of the new ground(s) of rejection. Applicant's amendment of claims 1 and 21 reciting the feed opening has necessitated the rejection on the basis of indefiniteness.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1, 3-5, 7-18, and 21-28 have rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. Specifically claims 1 and 21 recite a feed opening in two different lines of the claims. It is not clear where the feed openings are the same and thus in the second reference to the feed opening the term "said" should be there (per lacking antecedent basis) or if the second occurrence of a feed opening should read, "an additional feed opening" or another feed opening. As written both feed openings can be the same opening wherein two different gases are supplied or there could be two feeding openings at different locations or at the same location but physical separate or integral to another. Applicant is advised to amend the claim to assist in the search and consideration of this limitation.
